

Centre de Consultation

A UNIQUE global approach

A therapeutic Centre for individuals, families and companies.

Exploration workshops with SCÉNERGIE^{MC}

There is a lot of talk about energy?

But what is it?

How do you understand or influence it?

Come and explore the energy aspect of the problems and life situations you are confronted with and find solutions to these issues. You will have the opportunity to stop what you are doing and enjoy more inner peace.

And thanks to the Centre de Consultation's approach, you will learn how to interact with the energy dynamics of situations you choose to change.

At the Centre de Consultation-Scénergie, we will support you with kindness, joy and compassion

« There are no words to express how strong and good Scénergie and their role-playing are... you need to experience it!!!

Thank you for being there. "
