

Centre de Consultation

A UNIQUE global approach

A therapeutic Centre for individuals, families and companies.

Three-Day Workshops in SCÉNERGIE^{MC}

Workshops are held over the weekend and mark a break from the daily madness, and return to the most important element, You.

These workshops will enable you to revive your life's projects and create a new balance in your personal, domestic and professional lives.

Our teachings will help you understand the importance of realizing that we create our realities and even these realities are closely linked to the roles learned in our family history.

Scenergy will help you change these realities by altering the parts that have remained in the subconscious until this day.

With this newly created dynamic, you will have the power to attract new situations that are more adapted to your life's needs and desires!

*« (...) The pain that is transformed
The gentleness that consoles
The compassion that roams
The joy that bursts
Thank you!
I thank God for these 3 days.
You are **Number 1 actors!** »*

*« I witnessed the **Respect** that was given to every participant with our differences, our fears and doubts, our anxieties, our pains and our needs.*

I was welcomed, listened to and found company, support and accompaniment in my personal search all the while respecting my pace and limits. After three (3) days, I left in a state of euphoria and well-being that I have rarely felt in my life. »
